

NET-EUCEN

**“Network of European Stakeholders for
Enhance User Centricity in eGovernance”**

**eServices Europa 2nd Cycle Annual Event
*26-27 November 2009 Oeiras, Portugal***

NET-EUCEN: macro-objectives

- O1 - Creation of an inter-operational network**
- O2 - Development of guidelines for Services for Users(S4U)**
- O3 - Validation of application scenarios for S4U**
- O4 - Exploration of marketing opportunities**

NET-EUCEN: single targets

- T1** - Set-up of a communication network among S4U communities;
- T2** - Identification of short term needs for R&D and integration of solutions
- T3** - provide the EC with a set of guidelines for S4U
- T4** - support to the **interoperability** and **standards**
- T5** - **diffusion of** knowledge on S4U solutions
- T6** - promotion of **cooperation** and sectoral approaches to S4U
- T7** - to enlarge the dynamic network
- T8** - identification of marketing opportunities for S4U

Expected impact

- To improve the convenience for e-services users
 - **Innovative scenarios built with the support of technicians, analysts and international players, and businesses**
- To improve trust, transparency, responsibility and solidity of services provision by public administration at all levels
 - **Validation sessions of services/scenarios at all levels of provision and acquisition**
- To make the user-centricity essential condition for the uptake of services and the inclusive eGovernment
 - **Scenarios developed through collaborative sessions with users groups**

Technologies to be explored*

- **Cooperative platforms (of Mass and Real-time) / Social networking.**
 - **T-Government systems (DTV)**
 - **Technologies of the future (home, digital, security, nanotechnology)**
 - **The future of Internet**
- * Non exhaustive list
