

27 November 2009

Taguspark, Parque Ciência e Tecnologia,  
Núcleo Central 100,  
2740-122 Oeiras, Portugal

In the framework of the 2nd Cycle of the eServices Europa support service ([www.eservices-europa.eu](http://www.eservices-europa.eu)) INNOVA Europe and Intrasoft International would like to invite to participate in the upcoming eServices Europa annual conference, which seeks to stimulate the deployment and uptake of ICT by European citizens, governments and businesses and will take place in Lisbon (Portugal), on 27 November 2009.

The event is co-hosted by the Portuguese National Contact Point for the CIP ICT Policy Support Programme from the Knowledge Society Agency - Ministry of Science Technology and Higher Education.

The event will begin with the presentation of the next EU ICT PSP call programme (WP 2010), after which, some of the main European ICT PSP pilot actions and thematic networks will present their current activities and deployment results. European ICT PSP national contact points will also present some good practices related with the successful implementation and use of new eservices by their local constituencies. Other speakers, namely investors and public authorities may also give presentations<sup>1</sup>.

A networking session, which will give participants the opportunity to interact and exploit potential cooperation and business opportunities, will mark the end of the event.

Besides National Contact Points and ICT PSP call potential participants, this session is addressed to regional and national authorities, investors (such as venture capitalists and business angels), research centres and other stakeholders with an interest in the development, deployment and uptake of ICT.
